

Laura Cahn SB 46

To The Honorable Dante Bartolomeo and Diana Urban, Co-chairs, and the members of the Children Committee:

Please support SB-46 to ban lawn pesticides on high school grounds. We are extremely concerned about Connecticut's children being exposed to toxic lawn pesticides.

While we are pleased that Connecticut has a law prohibiting the use of poisonous lawn pesticides at day care centers and on the grounds of schools attended by children up to 8th grade, we want our children protected on high school grounds, in parks, and on playgrounds, municipal sports fields, and town greens.

If Hopkins, a New Haven school for children in grades 7 through 12, can have beautiful green grass without chemical pesticides, so can these other places.

Please support legislation to protect Connecticut's children wherever they may be exposed to toxic lawn pesticides.

Sincerely,

Laura Cahn
